Alpha Chi Announces Candidates for CedarWhat?

Jennifer G. Ross
Editor-in-Chief

CedarWhat? began in the 1960's with the Alpha Chi sponsored mock election. It used to be that when a student would tell someone that he attended Cedarville College the inevitable response would be, "Cedar What?" Playing on this typical response, Alpha Chi unanimously selected "CedarWhat?" as the name of a mythical nation-state where the election would take place.

Since then, CedarWhat? has been a mainstay of the Cedarville culture, bringing to the forefront such candidates as Dr. Alan Monroe, Mrs. Pat Dixon, Dr. J. Wesley Baker, Dr. Jack Riggs, and Dr. Pamela Deihl.

Alpha Chi advisor Kevin Sims explains, "CedarWhat? is a parody of the real presidential election. Because of that, don't be surprised if a third party candidate shows up at the last minute."

Campaigning by the candidates will culminate in a convention on October 31.

Dr. Murdoch will preside over the convention. The student body will be registering in states such as the State of Despair, State of Bliss, and State of Confusion.

Once elected the CedarWhat? President and Vice-President may fade from existence, but the memories of the campaign will not soon be forgotten.

Let this year's CedarWhat? be an encouragement to get involved in the real presidential election by casting a vote for a candidate that won't fade from existence, but rather will affect the entire country.

CedarGreen Seeks to Environmental

The members of the CedarGreen Party subscribe to the notion that every citizen of CedarWhat? is entitled to everything that will fulfill their needs and desires and make them productive citizens of this fair country. We believe the following platform items will dramatically demonstrate our commitment to this goal.

1. Environmental Correctness

The CedarGreen Party believes that the beauty of CedarWhat? is one of its most valued possessions and should be carefully protected. The following items outline our stance on the importance of this issue.

We believe endangered species of CedarWhat? must receive extra protection. Our scientists have discovered a rare species of snail, known as the CedarWhatsus, right here in CedarWhat?. This snail is quickly being destroyed by the spray used to kill dandelions. We support the banning of such sprays to protect our wildlife.

We believe the citizens should

be provided with the best environment possible. To accomplish this, we support the discontinuance of sidewalk installation. Sidewalks damage the ecosystem. Instead, we propose the installation of high-speed subways to carry students from their dorms to classes and back again. Of course, they will be solar powered to avoid contaminating the environment.

We believe the citizens should not be deprived of activities that encourage the use of the resources of CedarWhat?. We support the practice of "laking" for those who are newly engaged. However, to resolve the safety issue, we propose the installation of a new "laking" facility as an addition to the present athletic facility. The new addition will include totally padded walls and a slide for gently rolling the happy citizen into the temperature-controlled water. The facility will be approved by OSHA and Doug Chisholm, the Director of Public Safety.

2. Quality of Life

We propose the following items to enhance the quality of life of every CedarWhat? resident.

We believe we should try to increase student and college productivity through creative and progressive scheduling. We support the concept of a "Thankmas" break. This proposal would allow the citizens of CedarWhat? to work diligently from the end of August until the traditional Thanksgiving break. They would then be free to travel until after the first of the year. This not only avoids the interruption to the work schedule caused by the current practice, but it is also environmentally sound since it would allow the country to save the expense of heating all the buildings during this time period.

We support the proverb uttered by one of the great statesman in CedarWhat? history. He said, "Whatever we do should have quality stamped all over it." We believe this should be applied to the

quality of life here in CedarWhat?. We propose that every citizen be served the same quality of food as what is traditionally served in the hallowed hall known as the President's Dining Room. The CedarGreen Party also supports the reimbursement of some of the "green" you as citizens put into the coffers of CedarWhat?. Therefore, we propose that each citizen be given a tax break equal to the amount their car has depreciated. For example, a citizen with a new car would receive nothing while the low-income citizen driving an old car could receive several thousand dollars.

3. CedarWhat? Network

The CedarGreen Party applauds the installation of the new CedarWhat? network. It is a great help to all who seek to be productive in this great land. We believe this network has even greater potential.

We support the installation of all Cliff's Notes. These are an invaluable

aid in helping citizens for exams on books had time to read. And spent so much time with it's only fair that we the network.

We believe every citizen have the opportunity to one with whom they meaningful relationships. Therefore, we support the of the CedarWhat? Dean on the network. The provide an excellent those who traditionally with nothing to do. We further propose Ruby be designated Dean" and the overseer. Mrs. Sandy E. promoted to the new "Pairing Partner."

This is just a brief of CedarParty's beliefs. you will take the time vote for the party that for you, the CedarGreen

PURPLE! PURPLE! Wants to PARTY! PARTY!

You have heard of the Republican Party, the Democratic Party, the Liberal Party, the Conservative Party, etc. Now, 1992, is the year of the PARTY! PARTY!

CEDARWHAT? '92
PROUDLY PRESENTS THE
PARTY PARTY'S
CANDIDATES....
JON and DONNA PURPLE!

If you cast your vote for Purple! Purple! you are casting a vote for the following to occur on Cedarville College campus:

1. As our party's name implies, more Parties! Parties!
2. Expand CedarNet (campus computer network) to include ESPN, CNN, and Monday Night Football.
3. Room Service and Maid Service available in the Residence Halls.
4. The right to bare ankles! (Socks optional to men)
5. Women decide for themselves how cold it needs to be to wear slacks.
6. To safely reinstate a tradition: an olympic size, heated, indoor pool will be constructed, so

- that newly engaged men may again be "Laked" (Or will we say, "Pooled"?)
7. A vote for the "Chapel Lady" will double your available chapel cuts (You don't have to use them, but they will be available!).
8. Expand WSRN to a 24 hour FM contemporary Christian radio station, ultimately to become a contemporary Christian music video TV network as well!
9. Build a "Captain Bogey's" on campus to promote more Parties! Parties!

10. To accomodate your enriched social schedule, no tests or assignments will be due on Friday or Monday to promote your ability to Party! Party!

Party! platform that your teeth into, be sure cast your vote it is for... PURPLE!
Thank you for your

If you see some planks in our Party!

Letter to the Editor

Opportunity to Minister

Prison is a very hard thing for anyone to overcome, but I find myself everyday being very fortunate to have been able to see, and to experience the side of life that not many people in our society understand, and in many cases, elects not to understand.

I am a person who cares about people, and one who looks at the world through eyes that have seen many changes in the world around me. I know what I want to do in life and I hope that this letter will reach out and let people know that even in prison, we can make a difference in the world.

Again, I would enjoy hearing from anyone. I look forward to answering every letter.

Sincerely,
Gary Smith

Letters may be addressed to:

Cedars welcomes your concerns, please address as Letter to the Editor and send through campus mail.

ENS Building Better Than We Ever Dreamed It Would Be...Praise God!

The new ENS building

by Laura Richardson
Layout Editor

The dream for an Engineering Nursing Science Building grew out of a feasibility study in 1985 to determine if a four year Engineering Program was a possible addition to Cedarville College. Dr. Daniel Wetzel, Department Head of Science and Math, explained that in developing the program, a major criteria was to include the same general, biblical, and technical classes as other majors.

A recommendation was made to build a laboratory facility to accommodate the needs for this new program. The planning committee chaired by Dr. Wetzel and including Dr. Irene Allen, Dr. Jan Conway, Dr. Donald Baumann, and Dr. Terry Phipps, met together to decide the future needs of the

Engineering, Science and Nursing Departments.

Upon approval of the recommendation, the committee began planning for the project. There was much to consider in developing a layout for the building as three departments would share the building space. Therefore, the Nursing Department is on the third floor to ensure privacy and the Engineering Department is on the bottom floor because of its heavy equipment. Professors' offices are easily accessible to enable a healthy student-teacher relationship. The new Engineering Science Building now stands behind the library, casting its shadows on Cedar Lake.

An important feature of the building is the twelve new classrooms, including a two hundred seat lecture classroom. Not only will Engineering, Science, and Nurs-

Photo by E. Cochran

ing classes use this facility, but classes such as Foundations, Christian Life, and Fundamentals of Speech will also use it. This will help to eliminate crowded classroom conditions on campus.

The 68,000 square foot facility is highlighted by a spacious student lounge, a simulated hospital ward, and an electronics shop with plans

to add a mechanical work room. The labs are equipped with handicap stations and meet all handicap codes. Not only does the building provide laboratories for hands on experience for Nursing and Engineering majors, but it also provides offices for five new faculty members. As Dr. Wetzel states, "Most importantly the building is functional. It is going to work and serve the purpose for which it was architecturally designed."

Glowmer's Globe

Top Six Freshman Mysteries

Glowmer
Contributing Genius

come to Glowmer's Globe. Glowmer, and I'll be your. Many things about our little are confusing to Cedarville ts. However, since I am senior, I am fully qualified to tell you what to believe. This will, hopefully, throughout keep all of you informed of world events, and how to having one in your unit's room. Since the election is coming student's, especially freshmen are very confused about the that they hear and read. Well, they're reading. Anyhow, off here at Glowmer's Globe recounted the aforementioned in search of the top six things that are most confused about during this election year. I enjoy reading this top six so please remember Glowmer

is not responsible for items lost or damaged.

6. Many unable to distinguish between mud slinging and mud volleyball. Some believe that Dick Walker is secretly in charge of the election. When confronted, Michele Longo, campus activity guru, simply said, "No comment."

5. Several freshman inquiries concerning chances of Dr. Dixon being re-elected.

4. Many think "Tipper" is actually a good name for a dog.

3. Several confused by voting options, however, all like the new H. Ross Perot Engineering Nursing Science Gym History Secretary Building.

4. Some have confused voter registration with freshman class registration. Oh well, at least the line was shorter.

5. More freshmen are choosing the major "undecided" in silent support of Ross Perot almost running for President. He can't make up his mind, and neither can they.

Fall Bible Conference

Erwin Lutzer Speaks

Students' Hearts Touched

By Brian Bales
Assignment Editor

This year's Fall Bible Conference challenged many students to accept God's forgiveness. Dr. Erwin Lutzer, pastor of the Moody church in Chicago, spoke during the chapel services. In his messages, Dr. Lutzer concentrated on the forgiveness of sins. He told the students and the faculty that God can cleanse each person from his past and give them a new beginning. This was a welcome message to many college students.

According to Dr. Lutzer, people have a difficult time forgiving themselves for their past mistakes. They realize that God has forgiven them, but they cannot understand how God can ever use them in the future. He then gave many ex-

amples of biblical characters who failed, but God forgave and used to do great things in the future.

Hope was the overriding message of the conference. Jesus Christ gives hope even when the

situation seems hopeless. This message permeated many students, and they have sought out several faculty and staff members for help.

T.O.O.T.T. DEFINED

Beth Irving
Contributing Writer

Perhaps you've heard of a group of students on campus who call themselves "23." Or perhaps you've seen them wandering about in blue jackets with red stripes and strange lettering on the sleeves. Or you could be one of the many persons who has neither seen nor heard of "23."

"23" began last spring under the careful planning of Dick Walker and Michelle Longo who dedicated many hours to the successful formation of the group. Twenty-three students met in the finished lobby of the Engineering/Nursing Building as Dr. Drullinger challenged them with "The Order of the Towel" (which explains the T.O.O.T.T. on the

sleeves of the blue jackets). Taken from the thirteenth chapter of John where Jesus washed His disciples feet, "The Order of the Towel" became "23"'s symbol of service.

The lessons of servanthood began as the group of students met before school started for an East Coast bus tour. Traveling with the group, Dr. Drullinger expanded upon the significance of the towel as a symbol of the various aspects of service. "23" was able to put the lessons learned into practice along the way. The group helped the "Love Kitchen" in New York City by serving dinner to the homeless, singing, and preparing food for the next day.

The following evening was spent at the World Impact Building in Philadelphia picking up

trash, mowing lawns, cleaning, and painting the boiler room.

Through experience as student leaders, the members of "23" learned the necessity of being servants first. Christ, the greatest servant of all, stated in Matthew 20:26: "Whoever wants to become great among you must be your servant."

Leadership does not work without service. To be effective, a leader must have a servant's heart. But how can we be servants?

Francis Cosgrove, in an article entitled "The Disciple is a Servant," gave four suggestions on how to be a servant: do menial tasks; be available to God and others; be alert to the needs of others; and do more than you're asked.

"23" challenges you to join with them in "The Order of the Towel". You must be willing to do the little things-- willing to serve without recognition; willing to give your time; and willing to get your hands dirty.

Christ said to his disciples in John 13:14, "Now that I, your Lord and Teacher, have washed your feet, you also should wash one another's feet." Let us be willing to perform the most menial tasks in order to serve one another in the body of Christ.

Upcoming MIS Events: the who, what, when, and where

Plans for this year MIS have already begun. MIS recruitment week is October 18th through the 22nd. It begins Sunday night with MIS prism. Teams from last year will share about their summer missions experience. Following the evening service there will be an ice cream social in the cafeteria. Everyone interested in MIS is welcome to come out and spend time with the teams.

There will be a different missionary speaker each day in chapel including Ron Baker - CAM International, Ed Lewis - TEAM, Glenn Kurka - UFM International and Paul Jackson - EBM. In addition there will be a brief testimony by a MIS team leader and an MIS student. Students are encouraged to take advantage of the many varied opportunities in the ministries in which they are most interested.

**MIS Recruitment
Week
October 18 - 22**

'92 Summer School is a Success Director Plans to Expand Program Next Year

by Jennifer G. Ross
Editor-in-Chief

Due to a change in directors, expectations for enrollment in the 1992 summer school session were low. After several years of handling the summer school responsibilities, Dr. Michael Lopez turned the directorship over to Dr. Kevin Sims.

According to Dr. Sims, he came into the job in January and finalized summer faculty and schedules in March. Because of a lack

of experience in this type of organization, Sims said "I was ready to die a thousand deaths by April or May; I just didn't feel like I knew anything."

Summer school, however, was anything but a failure. Seven classes were offered in addition to the education blocks and enrollment was high. Enrollment in the first session was down—only 115 students—but 185 students enrolled in the third session.

After all the hassles of getting summer school going, Dr. Sims

was happy to say that he was very pleased with the overall turnout.

He went on to say "It was all due to the help and tremendous support from Student Services, the Cashier's Office, Resident Director Kim Ahlgrim, Admissions, Housekeeping, Academic Records, Food Services, and Computer Services."

"Without the help of all those people and their patience with me, summer school 1991-92 would have been a disaster," continued Sims.

Dr. Sims says that he's already planning to extend the third session two weeks next summer. He explains that this is being done to provide an opportunity for students to take two classes if they want.

"The way it is set up now, it isn't allowed or even feasible to take any more than one class," states Sims.

"Extending the session would also encourage more faculty members to get involved. This extension would make it more worthwhile in terms of time and effort and most importantly, they wouldn't have to cram everything in so quickly."

The summer travel study program was also under the direction of Dr. Sims. It, too, met with success. Dr. Philip Jones traveled with several students to Spain and next year Dr. Sims is hoping to send faculty and students to additional countries to study over the summer.

In any event, summer school was a success due to the student enrollment, the involvement of faculty, helpful key offices, and especially because of the willingness of Dr. Sims to jump into a new responsibility.

Reflection on a MIS Experience

Angela Hartman
Contributing Writer

*"If I rise on
wings of the dawn,
settle on the far side
the sea, even there
your hand will guide
your right hand
hold me fast."*

Psalms 139:9-10

*Being a part of
summer MIS medi-
missions team to
Ivory Coast provid-
me with many once-
a-lifetime opportu-
to help perform a va-
ety of medical prod-
dures. It also provid-
me with the oppor-
nity to love and share
God's love with another
people of His creation.*

*While in Africa,
Lord taught me that
wealth, in His eyes,
not the accumulation
material possession.
Rather, true wealth
attained by a love
God that freely shares
with others.*

*The Lord al-
brought to my attention
through the words
Jim Elliot, that "One
does not surrender
life in an instant. The
which is lifelong and
only be surrendered
a lifetime." And every
day, as we surrender
Him, He will, as prom-
ised in Psalm 139:1-10,
guide us and hold us
fast—no matter what
the geography.*
